

SCHIZOPHRENIA AWARENESS ASSOCIATION

25 Years of Service

ANNUAL REPORT 2022 - 2023

VISION

Persons living with Schizophrenia and related mental disorders will not suffer due to a lack of awareness on account of stigma and will be able to lead close to normal lives.

MISSION

To create public awareness and understanding about mental disorders in general and schizophrenia in particular.

To inculcate confidence in and practice of self-help amongst families with a member living with a mental disorder.

To provide facilities for capacity building including vocational training and to achieve economic and social rehabilitation of persons living with mental disorders.

PRESIDENTIAL NOTE

ABHAY KELE

SAA has now completed 26 years of service to persons with mental illness and their caregivers. It is with great pleasure that I must announce that our Silver Jubilee year was a turning point in many ways. New activities such as Pet Therapy and Theatre of the Oppressed were introduced to our Shubharthis at the Daycare Centre. The residential project at Village Bhoyare began to take shape. Our volunteers extended their reach once a week to the inmates of the Regional Mental Hospital at Yerwada.

Thus, in many ways it has been a year of progress, innovation and expansion. This has been possible only due to our dedicated team as all this was achieved without compromising our regular activities and our commitment to raise social awareness and remove the stigma associated with mental illness. We continued our peer support group meetings and since they are now held online, caregivers and other interested persons from all over India have now begun to participate in these meetings on a regular basis.

We have also been collaborating with other kindred organizations working in the field of mental health, significant among which has been The Banyan of Chennai, which has been of great assistance in shaping our residential project. This is of course a pilot project but I'm sure that the experience gained here will be of great use in the future, for there are plans to expand our residential facilities and extend them to more needy persons.

There are several NGOs working for the welfare of the downtrodden and the marginalized. Comparatively, very few work in the field of mental illness, a condition that, instead of evoking sympathy and compassion, evokes ridicule and revulsion. In spite of all the efforts made by SAA and others in this field, this still is the stark social reality. We truly have a long way to go before we accept persons with mental illness as integral parts of society and that they have a right to live happy, meaningful lives with the dignity they deserve.

SAA is committed to continue its struggle in this direction and I feel blessed to have received the opportunity to spearhead its efforts. However, SAA alone can never achieve its goals without support from every individual privileged to be in a position to be of help. We need your assistance in whatever capacity possible and hope you will not only continue to bolster our efforts but also motivate others too, to come forward and emulate your example. You can be the inspiration that others in society look forward to.

Your support also serves as encouragement to us to renew our efforts and re-dedicate ourselves to the welfare of persons with mental illness, their caregivers, the society and the nation as a whole. Persons with mental illness need us.

We need you.

SECRETARY'S REPORT

C RAVINDRANATH SAA's Silver Jubilee year witnessed a series of initiatives directed towards the welfare of Shubharthis and Shubhankars. A session of Art Based Therapy, which is usually administered to Shubharthis, was extended to Shubhankars in a one-day session. A two-day workshop on Theater of the Oppressed was conducted for Shubharthis, Shubhankars, staff and volunteers. It is proposed to introduce this as a long-term adjunct therapy aimed at helping the rehabilitation process of Shubharthis. A Film Show was held at the National Film Archives auditorium to enhance awareness on mental illness. The 'Manmandira' musical awareness programmes held at several cities in Maharashtra were huge successes.

'Manmandira' musical awareness programmes

Activity sessions at the Regional Mental Hospital, Yerwada, that had taken a break during Covid times, were resumed and SAA's volunteers conduct activity sessions for inmates once a week. Another new initiative is the introduction of Pet Therapy for Shubharthis, which has been found to have beneficial effects.

Pet Therapy

The old Tata Winger vehicle was replaced this year by a new Tempo Traveler, made possible by a donation from MSSO.

To enhance bonding and cohesion among SAA staff, volunteers and trustees, a one-day team-building workshop was also held this year, in recognition of the fact that it is the people behind SAA that form the driving force of the organization.

We have taken a quantum leap by starting our first residential facility 'Dilasaa' at village Bhoyare, near Kamshet in Mawal Taluka. This is a quantum leap for us but a small step towards meeting the long-felt need of caregivers.

◀ Dilasaa Building

Other routine events and activities were conducted as usual, such as webinars, support group sessions, advocacy work and awareness programmes. All this has been possible only because of the dedication and perseverance of SAA's staff and management, of course with the support of donors, volunteers and well-wishers. We pledge to continue our efforts in the future as well and hope to receive your support in our struggle to bring dignity and meaning to the lives of persons with mental illness. Thank you all and please continue to be with us!

On 14th **Feb.**, SAA participated in an exhibition organized by Rotary Club at Garware Metro Station.

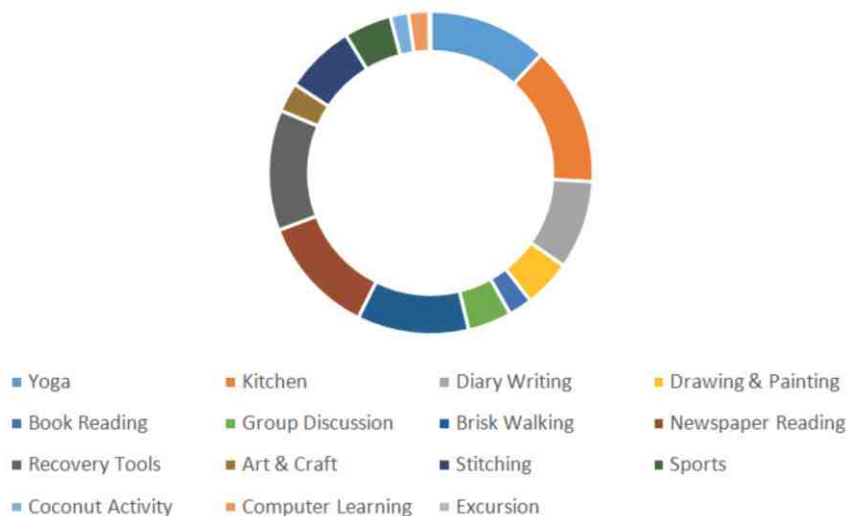

On 1st **March**, SAA participated in an exhibition organized by Avakayam at Suzlon Premises.

REHABILITATION ACTIVITIES

SAA has been successfully running a day rehabilitation center for the last 19 years. Many Shubharthis have benefited from the center.

Dr. Jagannath Wani Rehabilitation Center is focused on helping persons with mental illness return to an optimal level of functioning and achieve their life goals. This is brought about by providing psychological and social inputs. SAA believes that rehabilitation is an essential part of the treatment cycle.

The process of rehabilitation aims to help persons with mental illness develop the social and independent living skills they will need to integrate with mainstream society. This helps them find meaningful roles for themselves, at home, and at work. SAA supports the Shubharthis by providing opportunities and dealing with stigma and discrimination. SAA will continue to develop rehabilitation chances by providing new skills or setting new goals for Shubharthis

SAA focuses on the functional level of service users for their process of recovery. Psychotherapy and vocational training are the main features of SAA's day rehabilitation center. Psychotherapy and supportive therapy help Shubharthis to understand their behavior, emotions, and thoughts and learn to modify them. SAA has observed that most persons with mental illness benefit from psychotherapy to reduce their symptoms and function better in their lives.

On 11th May, Mr. Amrit Bakhshy, Mr. Ravindranath, Dr. Pragathi Kaushal and Ms. Indu Gupta interacted with The Banyan representatives Pallavi Rohatgi, and Ms. Parsana, I/c Maharashtra Project, regarding Home Again residential project for Shubharthis, at KKB.

On 30th May, Mr. Ravindranath, Ms. Indu Gupta and Ms. Pragathi Kaushal visited The Banyan's Home Again projects at Sakhroli and Aghai, Thane.

Psycho therapies & Supportive therapies

Online peer Support Group Meetings

SAA conducts online peer support groups for Shubharthis and Shubhankars to share coping strategies and learn from one another's experiences. This online meeting is held every 1st and 3rd Saturday of the month. These meetings provide a free and nonjudgmental environment for participants where they can talk and exchange information and ideas regarding dealing with mental illness. SAA's support group meetings are also sources of information to handle difficult circumstances.

This year as well, SAA conducted online sharing meetings and expert talks to build an insight about mental illness among service Shubharthis, Shubhankars and stakeholders.

On 9th April, A peer support group meeting was held for caregivers and other stakeholders by Mr. Amrit Bakhshy and Ms. Aarti Pandit.

On 23rd April, A peer support group meeting for caregivers was held on “Understanding and Managing Anxiety Spectrum Disorder” by Mr. Vivek Khattar, Counseling psychologist and co-founder of Safe Nest Consultancy, Gujarat.

On 14 May, a peer support group meeting was held for caregivers and other stakeholders by Mr. Amrit Kumar Bakhshy and Ms. Kadambari Kulkarni.
